

Java2: Lesson 7 – Lab Project

1. A **summary** at the top, **documentation** at the bottom and **comments** where necessary.
- Recordings and interviews are an exception, but they should be included in your submission code.
2. **Cite** the source of your information.
3. Refrain from including anything **you don't fully understand**.

1 **100 points**
5-min challenge: you will get full credit after you reproduce your work during a class or interview.
 Create a GUI program using **Scene Builder** that allows users to enter their name and a 4-digit phone number. The program should continue to prompt for input until the user enters '0' in the name field.

Note:

***Explain** the code you are writing.

*Perform **two consecutive recordings** for each task.

*Follow the **standard routine** for each interview.

1. **Share the entire screen** (<https://bit.ly/3INpkJV>)

2. Use only one screen to share (**Win + P > PC screen only**)

3. Display the running programs (**Alt + TAB**)

4. Get your IDE (**IntelliJ**) ready

5. **Presentation mode** (Ctrl + )

* **Editing** your recordings is considered **cheating** and will not be tolerated.

Sample result	
File(s) to submit	J206_1.java, *controller.java, *.fxml J206_1.png, YouTube link

3 **100 points**
 Modify each code and mark **/**** where you modified.

- a. This “how-to” assignment has no plagiarism issue (except **3-8** and **3-9**) as long as you submit your own work files.
- b. Submit only **one** .java file for each problem.
- c. Use copy & paste method.
- d. Submit screenshots of each window.
- e. Practice enough so that you can create any required component quickly and efficiently.

3-1. <https://liveexample.pearsoncmg.com/html/LabelWithGraphic.html>

Change the image, colors, shapes, sizes, label colors, and fonts.

3-2. <https://liveexample.pearsoncmg.com/html/ListViewDemo.html>

List five nations of your choice on the list and display the flags of two selected countries.

3-3. <https://liveexample.pearsoncmg.com/html/ScrollBarDemo.html>

Change the maximum and minimum value of the scroll bar.
